FLOU

_ Design by Studio Kinowa

FLOU IS THE SECOND RUBINETTERIE TREEMME COLLECTION MAKING ITS DÉBUT AT CERSAIE. THIS SERIES IS ALSO IN 316L STAINLESS STEEL, BUT WITH A BOLDER, MORE SCULPTURAL MATERIAL IDENTITY.

THE INSTANTLY RECOGNISABLE, STAND-OUT FEATURE OF THE DESIGN IS THE RIVET ON THE WALL, WITH A BROAD, ENVELOPING, CONE-SHAPED CURVE.

THE FLOU COLLECTION STRIKES A PERFECT BALANCE BETWEEN TECHNICAL RIGOUR AND SLEEK SHAPES, EMBODYING THE PROJECT VISION OF RUBINETTERIE TREEMME, GEARED TOWARDS ON-GOING RESEARCH AND AESTHETIC INNOVATION. CRAFTED IN 316L STAINLESS STEEL, THE SIGNATURE FEATURE OF THE FLOU SERIES IS THE EXTREMELY SLENDER RIVET ON THE WALL.

THE CUTTING-EDGE TECHNICAL ELEMENT IN THE COLLECTION IS AN INNOVATIVE MECHANISM THAT ALLOWS FOR MILLIMETRIC PRECISION IN THE ALIGNMENT OF THE LEVER HANDLES, GUARANTEEING A PERFECTLY PARALLEL RESULT EVEN IN THE MOST COMPLEX CONFIGURATIONS.

UN ELEMENTO TECNICO D'AVANGUARDIA È RAPPRESENTATO DA UN MECCANISMO INNOVATIVO CHE CONSENTE UN ALLINEAMENTO MILLIMETRICO DELLE MANIGLIE A LEVA, GARANTENDO PARALLELISMI PERFETTI ANCHE NELLE CONFIGURAZIONI PIÙ COMPLESSE.

7
FLOU

WITH NO VISIBLE GRUB SCREWS CONNECTING THE TAP HANDLE TO THE RIVET, THE SIMPLE, CLEAN LINES OF THE PRODUCT HIGHLIGHT THE ESSENCE OF THE MATERIAL AND THE PRECISION ENGINEERING. FLOU IS AIMED AT DEMANDING CUSTOMERS SEEKING UNDERSTATED ELEGANCE.

L'ASSENZA DI GRANI A VISTA NEL COLLEGAMENTO MANIGLIA/BORCHIA CONFERISCE AL PRODOTTO UN'ESTETICA MINIMALE E PULITA, VALORIZZANDO L'ESSENZA DEL MATERIALE E LA PRECISIONE DELLA LAVORAZIONE. FLOU SI RIVOLGE A UN PUBBLICO ESIGENTE E SENSIBILE ALL'ELEGANZA DISCRETA.
